

Plymouth Vanguard - Community Interest Statement

The aim of the Plymouth Vanguard American Football Team is to provide a high quality, accessible and inclusive American Football program to the Plymouth area.

Activity	How it will benefit the community
Physical Activity	Allow members of all levels of fitness to participate in sporting activities. American football is a sport that members of any size or shape can play.
Coaching & Mentoring	PVAFT will look to grow our own coaching staff, organically, and put members through coaching courses. This will ensure their further development as part of the team and their day to day life.
Promotion & Mental Health Awareness	We will be working closely with the 'Lifting the Lid' American Football campaign to enhance awareness of mental health struggles whilst providing a place for members to discuss, outside of their daily lives.
Create Youth Program (Junior Varsity)	Providing a free youth program will allow players of all backgrounds to become involved with American Football. This will promote fitness, discipline, and build a positive attitude for all involved.
Organise Events, Social Activities	Game day events will build a community spirit with the local population. All matches will be free entry and help boost the local economy with opportunities for local traders to set up stalls.

If the company makes any surplus then it will be reinvested into the club. This will come in the form of new equipment, our junior program, team outreach programs, or reinvested in the enterprise with the aim of furthering the clubs development.
